Patient Testimonials

- Everything went well. I was treated nicely by all members of the staff. They were sincere.
- A very efficient staff makes for a more pleasurable procedure experience. Well done, thanks to all.
- The privacy of the recovery area was much appreciated.
- I'm so very impressed with each & every person who took care of me especially RN Kathy, RN Carol, Nurse Anesthetist Kelly and Dr. Katie Agnello. I was a nervous wreck and they helped calm me down in such a caring manner. They are the personification of professionalism.
- I was extremely impressed with the facility and all the staff. Everyone was very kind to me and to their co-workers as well. All the staff seemed very competent and acted professionally. Most importantly, they were kind and caring, which helped put me at ease. I would highly recommend Dr. Dumas and his staff to anyone in need of a gastrointestinal test.
- Carol Stevens can put my IV in any day, tiny pinch, no bruise, so kind and gentle. Getting the IV is my worst anxiety, BP always soars! Carol was the best I've ever had do this. She was wonderful in every way. I was very comfortable with Kelly, Meghan and Candy (post). Everyone treated me with kindness, respect and assurance. Very good experience all around. No hesitation to come back again if need be. Even the intake rep was sweet, kind and very pleasant. Big thanks to all.
- Procedure was to easy fell asleep woke up didn't feel anything good to go shouldn't hesitate to get checked.
- Can't say enough as to how great the Doctor and staff were. I would never consider going anywhere else.
- Everyone at Gulf Coast Endoscopy & Surgery Center of Venice was great from check in to departure. Dr. Kondapalli has great bedside manner which is extremely important to me. He is very caring and professional. There's a reason why so many people recommended him to me. I want to thank everyone for the great care while at the center including Dr. Kondapalli, nurses Marthe and Julie, Anesthesiologist Kelly, and Tammy at the front desk. I don't remember the name of the nurse in the OR, but want to thank her as well. I was at a similar surgical center in North Carolina and I must say Gulf Coast in Venice is far superior in that you have individualized service, more privacy and little touches like a warmed blanket while waiting to go in for your procedure go a long way for me. I will highly recommend this center to anyone and will absolutely return there in the future as needed.
- Staff and doctor excellent. Would not hesitate to return when procedure is needed. Thanks for terrific care.
- Excellent facility and wonderful staff from beginning to end. Staff was courteous, kind and very pleasant. Would highly recommend Gulfcoast Endoscopy Center. Thank you for all you do!
- I chose Dr Kondapalli because of his stellar reputation. He was very professional and gentle. I definitely recommend him. The Medical Center was immaculate and the staff very efficient, considerate, and had good bedside manners.
- Wow!! What a staff and facility! Everyone was so friendly and kind. They made me feel comfortable and put me at ease about being there. I really appreciate how they treated me while I was there and even after I came home by calling and checking on me.
- Overall experience was excellent! Staff was friendly, comforting, professional and I felt very comfortable.
- Actually, I chose Dr. Kondapalli upon several favorable recommendations from several medical professionals, whom I trust with such decisions. In turn, Dr. K. scheduled my colonoscopy with GC Endo Center, and I'm very pleased that he did. I have an extensive medical background, both personally and through family. I have nothing but good things to say of my experience with GCEC. I would like to especially thank Amy (prep) and Julie (recovery) for their efforts. Their professionalism and congenial attitude made my visit that much more pleasant.
- Very friendly nursing staff! Marthe was wonderful before my procedure--made me feel comfortable and relaxed! The only thing that needs work is the waiting area--too small for so many patients. Also, the tv was playing a food prep show---

definitely NOT what should be playing when people are hungry from their clear liquid fast!! :)

- Arrived at facility at 2:30 PM for procedure scheduled for 3:15. Within five minutes Jennifer had me checked in. At 2:37 nurse Kathy Spielman came to prep me for a upper endoscopy. After a very short time they moved me to the treatment room explained the procedure. At 3:20 I was back in recovery and was handled by Tracy Mozzicato who explained the discharge. At that time Dr. Kondapalli explained the results. I was discharged at 3:51, less than an hour and a half of arriving. Could not be more pleased with the persons involved.
- Admitting nurse was wearing perfume. It was light but distracting and not a scent I cared for.
- Everyone at the Center is pleasant, helpful and thoughtful in their treatment of me as the patient. They truly care about the patients. This care and professionalism makes an unpleasant procedure less scary and me as the patient more comfortable.
- My colonoscopy procedure went very well due to the care by all the staff at your facility. I would highly recommend your practice to my friends. Thank you for making my procedure that day go without a hitch. Everyone there treated me with the upmost care and professionalism. You are top notch in my book!
- My only comment is that Center is the best one ever and anyone needing this procedure or any procedures involving "Gastro" problems must seek out this Center!!
- Everyone from pre surgery to post were very professional. I was well informed of what was being done, and the staff were very friendly. I felt very comfortable there. Continue the good job everyone, because word of mouth can bring you up, but can take you down just as quickly. Thank you for your services.
- I was made to feel very comfortable when I arrived up until I left the center. Would definitely return to the center again.
- I was so pleased with my experience at your center. The staff, beginning with check-in were efficient and so cheerful. After a necessary uncomfortable prep, the care at your facility makes you forget all that! Thank you, Dr. Dumas for a safe procedure and satisfactory outcome!
- My experience including procedure with Gulf Coast Endoscopy was truly excellent from point of admission, through exiting the building and through the follow-up/next day phone call I received to check on my well being. The Doctor, Nurses, Anesthesiologist, Admission personnel gets an A+ from me.
- My experience, from beginning to end, was even better than I had expected it would be. Everyone treated me with great respect. I was surprised at how quickly I was called in from the waiting room and how efficiently everything went. Martha and Linda were terrific. Dr. Durrett and Curtis are perhaps the finest doctor-tech team I have ever experienced, helping me to have the best outcome possible with my cataract surgery. I was also impressed with the latest and best equipment that was available for my surgery. This facility is a jewel and I would return in a heartbeat!
- Dr. Taylor is very kind. At my new patient office appointment before the procedure she took the time to talk to me and explain about my symptoms and plan of care. Everyone at the surgery center took very good care of me from check in to discharge. Thank you!
- All the staff I came in contact were very good at what they did, extremely nice and cared about me as a person not just their patient.
- I was very pleased with the way this office is run like a well oiled machine. All of the people I came in contact with were very nice and also helpful. I definitely would return and also tell any friends that inquired about my experience, that I was very pleased.

- I had a colonoscopy in Jan. at a different center. What a disaster. They did not remove my polyps during the procedure. And

have yet to follow up. Never going back there and would NOT recommend them. I chose to have a second opinion. So glad I did. What a difference in the doctor and this center. I would highly recommend All. Thank you

- A wonderful place to have testing done, very concerned and knowledgeable staff from the minute you walk in the front door till your exit. Thanks for making testing so easy.
- Overall, a well run, professional, personable, efficient organization. Personnel were efficient, courteous, knowledgeable, and professional. Highly recommended and plan if need be to return if necessary.
- Impressed as soon as I walked into building, cleanliness. Everyone one was so friendly & informative to all the info I was getting. Explained so clearly. Doctor Raja couldn't be any kinder to me & explained the outcome of the surgery clearly to my friend who came with me. Sending high praises to all who made a uncomfortable procedure comfortable. Thank You.
- Very Satisfied from registration to departure. All persons at the clinic were efficient and courteous. They cared for me in a well organized and competent way. My home recovery was excellent.
- The following people at the Center were terrific with their bedside manner, knowledge and care.
Pre-procedure – Amy
Nurse anesthetist - Gail
Operating room - Adam
Post-procedure - Tracy
Last, but not least, Dr. Felman made me feel that everything would be fine. I would refer Dr. Felman and the Center to my friends.
- Good Experience - recommend - Glad it's over - glad it's behind me (wink)
- I cannot begin to express my satisfaction with the staff at the Gulf Coast Endoscopy Center I visited. From the front desk, to the nurses, and the doctor. Each and every one of them was courteous, professional, and made my visit as comfortable as they possibly could. Please forward my thanks on to each and every one of the staff there. Thanks!!!
- One of the only times I can remember that the procedure actually occurred at the time for which it was scheduled. My appointment time was 10:30 a.m., and the procedure actually began at 10:30. I arrived by 9:45 as instructed and all of the prep occurred timely. I was wheeled into the procedure room and anesthetized at 10:29. You all did a fabulous job!!
- I especially appreciated all the nurses and the anesthetist who were friendly and answered all my questions and made me feel comfortable. Even brought me two warm blankets to cover me as I was cold. The discharge nurse, I think her name was Marthe, was especially nice and informative to my son and myself. Even buckled my seat belt in the car to make sure I was settled and comfortable. And today she called in the morning to see how I was and if I had nay further questions, Everyone from the front desk to leaving was kind and friendly to this 84 year old woman. Thank you very very much.
- Excellent treatment from everyone I encountered. All nurses were smiling and friendly. I will be recommending Gulf Coast and Dr. Agnello to my friends if they are ever in need of a Gastroenterologist.
- The team at Gulf Coast Endoscopy Center does a fabulous job treating patients professionally and with a high degree of skill and care. Amazing job each time I've been here.
- The staff and Doctors were very considerate of my concerns and were very nice and comforting.
- 2nd time I was there. Had a excellent experience both times. Everyone was so nice and concerned about me and made me feel comfortable from the time I walked in till I left. Will be going back again whenever I need there services.
- Overall, the experience was very satisfactory. The colonoscopy prep is always difficult and uncomfortable, but the staff at this facility made the day of the procedure extremely satisfying.
- Very professional, courteous and friendly I really like Dr. Kondapalli, he is down to earth, passionate and has a great patient

side manor!!

- The staff at Gulf Coast Edoscopy Center are fantastic! They are extremely professional, friendly, caring, and reassuring. They made me feel like I was the only patient there! I am grateful for Dr. Taylor's expertise and care. The entire experience was so easy and I was home within an hour and a half! Thank you!
- The service and procedures were efficiently handled. All staff was professional and responded to questions. They also made me feel at ease throughout the process.
- Obviously, was not looking forward to the procedure, knowing what was to be expected in preparation. As uncomfortable as that was, the actual procedure was very professionally done. If I can single out one of your people for special recognition I would give kudos to Amy, the nurse who put in my iv. She was so friendly and attentive. She noticed my wedding band had a cross on it and made comment as to how much she liked it. I told her I was a preacher and she became very excited to talk with me about my internet ministry. I have very high regard for all who assisted me and Dr Dumas was extremely professional. I am the owner of an insurance company that does nothing but help seniors with their Medicare. I have hundreds of patients my age or greater in the Venice area. I will make sure to recommend Dr. Dumas and his people to all my clients.
- Prep that I was give was the worst I've had (and I've had at least six). Anesthesiologist cause a great amount of pain inserting. Know there is a pill that is 97% accurate but it was not recommended. Why? At 75 this would be a better option.
- Care throughout has been excellent!! Cannot remember if anesthesiologist talked to me or not. The prep and post recovery both were more difficult than I anticipated
- All interactions with Dr. Agnello and all staff at doctor's office & endoscopy center were professional, courteous, & personable. I was extremely satisfied.
- Dr. Kondapalli and the staff were very courteous and efficient. They had prompt follow-up on any questions I had. Great place to have procedures done.
- Nasty tasting solution. Had very hard time getting it down even though it was to smaller size amount. Got through the first one much easier than the second. Don't want to repeat that any time soon. However, the actual procedure day was almost pleasant because of your thoughtful staff.
- The process to prep for the procedure actually started a little ahead of schedule - a good thing. Everyone from admitting to post care was very helpful and courteous, always asking if I was doing okay and if I had any questions. There was very little waiting throughout the entire process which virtually eliminated the anxiety of waiting around and feeling like just another number waiting in line. Overall very pleased with the process and people.
- Had lengthy in waiting room (75 Minutes) due to Dr Dumas running behind. Understand it was unavoidable, these things happen. Hence the poor review on length of waiting time. Everything else was excellent, as usual.
- Your staff is very professional and have personal touch I was treated like a family member and not a patient, THANK You
- Excellent from beginning to end. Very pleased with Provision Eyecare and the Endoscopy Center. Professional, great customer service, could not be happier.
- First, everyone was very kind and very professional. I was treated with respect and care. I was very happy that there were only women (nurse, anesthesiologist and doctor) in the room where I had the procedure. This made me feel very comfortable. My only complaint is the facility is showing its age. I think it's time for a remodel, especially the outside waiting room. The area where you wait before they wheel you in to have the procedure is small and cramped. I could hear the nurses asking other patients questions and their answers. Other than that I was very pleased with my experience. Thank you.
- The staff at Gulf Coast Endoscopy Center was second to none. Their professionalism, expertise, bedside manner pre- and post- procedure was exceptional. I knew exactly what to expect at every phase. Most importantly, their follow-up with me the following day showed their true character! Other medical facilities should take note of how truly exceptional the entire staff

was and learn from it! Thank you. P.S. I'll be back, but not for 5 years :)

- I've had 5 colonoscopies this was #6. I've never experienced the level of professionalism combined with such caring and concern as I did in this facility. Every person I came in contact with without exception tried to give information as well as calm my fears. Here I felt like a person, the other 5 times at other locations I felt I was treated like sack of potatoes. I've recommended you to several friends.
- Excellent service from check to checkout. No waiting once checked in very efficient run operation.
- All of the staff is to be commended for their courtesy, compassion and attention to detail. My wife and I have both been treated here and would not go anywhere else.
- The efficiency of the staff made the overall experience virtually painless. I was in and out in an hour and a half for a colonoscopy.
- Overall great experience. A little long wait for procedure, but was kept comfortable. Thankfully, my recovery nurse came in a turned off the light. I would recommend a regular TV for people waiting in the waiting room. Otherwise, I highly recommend this center and definitely recommend Dr. Kondapalli!
- Dr. Dumas is an excellent doctor. His staff is responsive and communicates quickly. The staff at gulfcoast is very professional, attentive and caring. A special thank you to Bree and Marthe for their professionalism and kind attitude.
- From the time I walked through the door, to when I was wheeled out, was AWESOME! Dr. Felman is GREAT! KUDOS TO AII!!!!
- The office staff were very polite and also very apologetic when it was discovered that I was waiting in the front lobby for over an hour after signing in. Perhaps additional training or tech help would alleviate this problem in the future. All the medical staff were fantastic and very kind to me. They made me comfortable and were reassuring about my high blood pressure!
- I am not sure which of the two ladies was the anesthesia provider as I was busy talking to the lady that wheeled me in as we tried to retrieve the monitoring cords from underneath my gown. And then the lady who wheeled me in was administering the goodnight juice and that's all I remember and that is why the question did the anesthesia provider talk to me was answered N/A. I talked to two people but didn't know who was who job specifically.
- As my eyes were closed for most of the time during my appointment, I was constantly informed as to what was being done and made comfortable. I greatly appreciate this. Everyone I came into contact with was most kind, friendly and efficient. Thank you all. And I also appreciated the followup phone call this morning as to how I was doing.
- Never believed the procedure would be this easy. Great group of caring people working here.
- Very impressed with this facility. Will definitely tell all my friends because they fear/put off having this procedure done.
- Dr. Dumas is gentle and kind, a good Doctor and a credit to his profession. The facility clean. The Staff professional and caring. They all treated me with dignity and respect. Excellent. Highly recommended!
- I could not have asked for better treatment than I had during this procedure: from check-in to delivery to my car after the procedure everyone was warm, caring, informative and professional.
- My first visit here. Very efficient processing of patients. The medical staff people are helpful and friendly. Timing is important and they don't seem to waste any time. Thanks.
- This was my first colonoscopy and I was treated so well and put at ease.It was a very nice experience,great doctor and staff.
- This is my second procedure at Gulf Coast. I also had cataract surgery at this facility and had the same great care.

- Everyone that I had contact with at the Center was very professional. I felt welcomed and cared for. - I was extremely pleased from the beginning of my first visit to Dr. Agnello, scheduling with Amanda, to the end of the entire process. My nurse Emmy was very kind and reassuring. My anesthesia provider spent a fair amount of time with me before the procedure explaining the process and tried to keep me smiling. I would recommend Dr. Agnello and the entire team for this colonoscopy procedure.
- Every person, front desk/nurses/anesthesiologist/doctor I came in contact with today for my colonoscopy was extremely friendly and fantastic! I really felt special while there today. Thank you so much!!
- If I had to have this procedure this is the place to go as a matter of fact I have to go back on 3/4/2019 for another.

- Everyone was very kind and efficient, Answered all my questions and made me feel comfortable.
- I am very grateful to have been referred to this doctor, and to this facility. My grades to doctor, staff, and facility: A+

Also, Dr. Kondapalli, anesthesia and surgery nurse. Everyone was very pleasant, upbeat, concerned and professional. Patient Testimonials

- The entire staff were polite, professional, friendly, knowledgeable, and efficient, qualities we unfortunately too often. Congratulations to the doctors for assembling a great team!
- Very efficient and professional process from check-in to departure. What healthcare should strive for to reduce cost but provide a world class product.
- I cannot say Enough Wonderful things about this Gulf Coast Endoscopy & Surgery Center of Venice. The Woman who did paper work for my Admission before my procedure, The Wonderful Nurse who took info from me while I changed into a gown then gave me Very Warm blankets before putting an I.V. line in. The comical Anesthesiologist, was great. The Nurse with the Dr. in the Procedure room were both very good and attentive. If I needed to have this done I was Grateful for all the Special people who were involved. Thank you to ALL
- From my set up appointment to the procedure everything went so smooth...everyone was very caring & very organized . I asked the Dr for a copy of my procedure & he got it right awayno problem.
- I have had this doctor, staff and facility for three check ups over several years. Everything is well planned, completed efficiently and I know I am in good hands by all. Thank you
- Over the years I have had many procedures done that called for an IV. This is the first one where I have struggled to find or feel where it went in, even only hours after the procedure. Kudos to the young lady who did it (don't remember her name but she called me in, was very young, and wore shiny Crocs). Overall procedure very simple and straightforward and well done, entire staff pleasant and professional.
- Great experience (for a colonoscopy!). Simple procedure for the peace of mind you get. Nothing to fear or be embarrassed about.
- Everyone at Gulf Coast Endoscopy Center was caring and professional. They have a knack for making patients feel at ease at what's usually a nervous time. Very pleased with my entire experience.

- The facility and staff took every precaution and effort to ensure my comfort and confidence regarding my procedure before, during and afterward. I appreciate the follow-up call the next day. Very competent and professional.
- In the past 2 months I've spent 10 days in the hospital and was treated poorly almost every step of the way. That made my stay and recovery incredibly difficult. It was refreshing to be treated with such compassion and respect by Dr. Dumas and his staff in his office and surgery center.
- Ariel, RN was patient, kind, and attentive to my needs. She explained each procedure she completed from the urine test to inserting the IV. Adam, RN was very kind to my partner who was waiting for me in recovery; offering an apple juice/water.
- Awesome service as usual. Wish there was Surgical Center located at Lakewood Ranch for my frequent procedure. Dr. K and his surgical staff are awesome, so it's worth the drive.
- I had a colonoscopy on Friday and it was a great overall experience. My only suggestion for improvement concerned post op instructions, which I found somewhat vague, regards stool COLOR. Mine was normally formed, but black, not dark, not tarry black just normally formed black. The instruction discussed tarry black and liquid blood quantities i.e. teaspoon +. Being Saturday I did not bother to call. I decided that because I felt OK I would wait a day. It (stool) was dark brown on Sunday relieving me of any concern. I was given a FU call on Monday at 8 AM which I appreciated and while I was relieved I did express this concern. Keep up the good work and FU.
- Very satisfied from first encounter when reporting in through procedure and discharge. I did not arrive at the right time for my procedure but was very nicely helped and was able to have procedure.

- This was my first time having this procedure done at this facility. Everyone, from my first visit to my actual date of the procedure, was very professional, understanding and knowledgeable. I really appreciated the fact that I did not have to wait to see the doctor for my initial appointment or for my procedure. One of the most annoying aspects of seeing a doctor (for me) is having to wait in the outer office for an extended period of time. From beginning to end my scheduled times were accurate. I would highly recommend this center to anyone.

- WISH THEY HAD A COFFEE MACHINE FOR PEOPLE WAITING ON PATIENT.(unless afraid patient might get one before surgery by forgetting no liquid.)
- You could save on paper if you just ask the patient~will you fill out the survey online? Cause I did & now I'm throwing away your letter & envelope. Only FYI no negative feeling towards you in any way.

I do appreciate the work that each professional there does each day, including the time they spent with me. It is refreshing to see health professionals working well together with such positive attitudes.
- The Gulf Coast Endoscopy team is 1st class. I'm a 1st time patient, and although I had very good experiences with my former provider in Denver, you're a cut above. Everyone was highly professional and the whole process was well orchestrated and on time, like a fine Swiss watch. I was very impressed.

- My experience at your Center was entirely positive. Especially I would like to comment favorably on the care from my nurse, Marthe. Her expertise, and upbeat disposition were very well received. - I would highly recommend Katie Agnello, M.D., and all the staff at Gulf Coast Endoscopy and Surgery Center of Venice, for colonoscopy needs.
- From the initial call to set up my appointment to wheeling me to the car after the procedure, everyone was kind, courteous and professional! I do agree with the Anesthesiologist, a food truck in the parking lot would be a welcome addition! Thank you to everyone for making my first colonoscopy as pleasant as possible.
- This is my 4th procedure done recently at this office. It is a pleasure to come there. Everyone is so nice, friendly, knowledgeable and helpful. Unlike other offices I have been to.
- Very impressed by the concern of all. My only objection was the rock music being played in the procedure room. WILL HIGHLY RECOMMEND! Thank you very much! and GOD bless!
- Nobody likes this procedure and the prep day sucks but staff are caring and try and get you through it quickly and calmly. Although the "herding cattle" style of rotation makes you feel invisible, the whole staff are attentive and kind. We will continue to use Dr. Dumus and this facility. Thank you
- This was a very efficiently run center, while still attending to me as a "person".
- The staff was so kind and efficient. Everything was explained, I was in and out of the procedure quickly. It was above my expectations.
- My apprehension was gone as soon as I was called in. Each staff member (the pre-op team), treated me professionally and with respect. Always asking if I was feeling fine and explaining what they were going to do. The anesthesiologist was very gentle and of course Dr. Agnello, as always, greeted me with a smile. I knew I was in great hands. Thanks to all. See you in 10 years!
- Not a procedure you like to have, but Gulf Coast Endoscopy Center handles everything so professional & puts you at ease.
- Very nice staff and doctor. Thank you in advance for my gift cert (yes, I have a sense of Humor)
- I was very pleased with the consultation at Dr Agnello's office. I prepared the paper work ahead of my scheduled procedure and was able to drop it off at the office very conveniently. The morning of the procedure we were greeted and processed quickly. All the staff was professional and asked if I had any questions through the procedure. I would highly recommend this facility as well as Dr Agnello.
- My husband and I have been patients of Dr. Kondapalli since 2007. All of our procedures have been at Gulf Coast Endoscopy Center and we have never had any problems beginning with the staff, the nurses, the rooms are immaculate, everyone is cheerful and efficient. The surgery room is immaculate, and they have a great anesthesiologist who explains what she is doing. And of course we are very happy to have Dr. Kondapalli as our doctor.
- All of them know what they are doing and we feel safe. No worries about anything. Great job. My wife is going to do her exam here too. Thanks to all of them.
- The only halfway negative comment I would make is the prep and recovery rooms, being small and having a curtain, and located so close to the nurses station, allow all the staff conversation to be heard. Which at times are very loud and could be annoying.
- I am very satisfied with all of the staff that was involved with my cataract surgery - they were professional and caring!!

- I was well taken care of from start to completion. Great staff that kept me informed.
- Martha & Amanda were the best. They were professional and kind.
- I have nothing than PRAISE FOR ALL INVOLVED with my colonoscopy experience at your center yesterday. Having 2 major concerns, one being the Dr may accidently nick my colon wall and the other being to get an IV placed in my left arm with my BAD collapsible veins! Well both concerns were met with GREAT FLYING COLORS! Thanks Dr. Felman and Martha the excellent nurse! I didn't even have a bruise where Martha inserted the IV. Thanks again for all of your CARE.
- I have had an endoscopy and colonoscopy at Gulf Coast Endoscopy Center this past year. Both procedures were performed by Dr. Katie Agnello. I have been very pleased with not only the doctor but all the staff. Will absolutely continue my care with them.
- A very smooth and professionally run center. Top shelf organization for you to consider.
- Dr. Caren Taylor is physician. Overall great experience for what it is about. Staff was very friendly and helpful. Comment on Anesthesia relates to the rushed feeling I got from him. I waited a little while so they must have been behind.
- Everyone was friendly and efficient from Tammy when I arrived, to my first nurse Amy, to Kelly in anesthesia and Bree in recovery. And of course, Dr. Agnello was friendly and gave me confidence. I was very, very nervous and there really wasn't any need to be. Everyone made me feel much less anxious.

- Great pleasant staff. Prompt care. Great choice of music.

- The "nightmare stories" one hears of past experiences is completely fictitious. My wife told me later, "I had a hard time waking up". That's what it seemed like. I suggested a Wake Up Call next time!

I just want to thank Bree and Martha for their outstanding concern at all times and the rest of the staff for their professionalism. AND, Dr. Felman is just a very nice man!! I wouldn't want to do this every day but very happy that the Gulf Coast Endo Center is here and is a great facility!! Thank you!!!
- Overall excellent care. Can't think of anything to improve on.
- I was treated very nicely and made comfortable at all times.
- Physician spoke with me minimally before the procedure and briefly after the procedure to provide the result of the procedure. Did not expect or need more conversation with him. The nurses are responsible for the care and they were excellent...and pleasant.
- I am fully satisfied with the experience at the center, the check-in the Nurses, Doctor, all were concerned about my well being.
- Procedure went well but had some pain during the remainder of the day and night after procedure, but believe it was the gas. The staff is phenomenal in every area of the center. Would highly recommend to anyone needing a procedure.

- Nice clean facility with a friendly helpful staff. Doctor was pleasant & professional. I would recommend this place to others.
- Everyone at the center was amazing, from check in to discharge. Pre-procedure instructions were very clear. I was anxious about the procedure, but the staff made me feel very safe and comfortable. Dr. Agnello is kind, gentle and understanding; she answered all my questions and I did not feel rushed at all. The procedure went very smoothly, and there was no pain or tenderness afterward. I had nothing to be anxious about! I also received a phone call the next morning to make sure I was doing ok; this was much appreciated. I will definitely recommend to my friends needing the same care.
- The Doctor and staff were all excellent and made sure I was always kept informed and comfortable throughout my procedure.
- Great place but you need softer toilet paper!
- The nurses at GC Endoscopy are extraordinary. They made sure to explain what they were doing, and asked if I was comfortable. Kathleen brought an extra warm blanket and shared some good family news, easing any stress while waiting for the procedure. After the procedure the nurse helping me with discharge was very upbeat and friendly. This was the best experience any patient could hope to have.
- The center and staff was not only concerned with the patient care but also the spouse was kept informed as well.

- My experience at the facility was excellent. Everyone was cordial, professional and really showed that they cared for me as a patient.
- The staff - Tammy, Kathy, Portia, Megan, and Kelly - were all very professional and courteous. They also had a sense of humor, a valuable asset to put a patient (specifically this patient!) at ease prior to and recovery from the procedure.

Patient Testimonials

- Doctor and all staff were personable and fantastic, and quickly put any concerns to rest.
- Thank you Doctor R Felman and the staff at Gulf Coast Endoscopy center.
- I was nervous about procedures as I have never had either. I don't think I have been cared for by kinder, more competent staff anywhere. It was an excellent experience, and I had no anxiety while I was in their care, and no pain or discomfort after.
- Everyone at Gulf Coast Endoscopy made my procedure as pleasant an experience as possible. Will recommend to friends and family.
- Thanks to Tammy - Martha - Gail - Adam - Ariel and of course Dr. Felman. All were great!
- All staff that I encountered at the facility were professional, caring, polite and friendly. I would not hesitate AT ALL to use this facility in the future and to refer others to do so. Thank you for excellent care from reception to discharge. Also, the cleanliness of the facility was obvious, impressive and appreciated!

- A few comments...

1. Your survey has its scoring backwards. I got all the way to the bottom before I realized that you are using 1=best & 5=worst (and yes, I know you have a key at the top of the survey which I only now saw), which is exactly opposite from all online review systems we have all come to be familiar with. Fortunately I caught it but I had scored you with all 4s and 5s which on your scale would have been terrible, and untrue.

2. The service of the staff at every level of my interaction with Dr. Felman and your center was outstanding. Carol in scheduling was super helpful and nice. Martha, who got me ready for my procedure was INCREDIBLE. I'm a pretty healthy person on average so don't have a lot of experience with hospitals and procedures, etc, so I was a bit apprehensive and nervous. Martha recognized that and did so much to put me at ease. I won't go into details but suffice it to say that a large part of my VERY positive experience can be attributed to her.

3. Tammy at check in was nice and helpful.

4. Gale the anesthetist was very nice and obviously did a good job. I had no issues with my nose or throat afterward.

5. Ariel managed my discharge and was very sweet, fun, and nice, and she answered whatever questions we had.

6. Dr. Felman, who I think is great, came to visit me after the procedure I am told. I say that because in my opinion it was too soon after the procedure. Thankfully my wife was there with me and she let me know what the Doc said and what I said back since I had/have no recollection of seeing him at all afterward. So though I suppose I must have seemed awake and alert, evidently that was not the case at all. I think you guys should be aware of that. If I had been by myself, I would not have known any of the important information that the Doc told my wife and me.

7. My wife, as a guest in your lobby waiting for me, really appreciated that you had useful and informative segments presented on your TV screen. She enjoyed the presentations and also was glad that it wasn't on a short loop of the same thing over and over, given that she was there for at least an hour.

- Excellent experience. I would recommend friends to Gulf Coast Endo!
- Because of such considerate and professional care, this less than pleasant procedure was as stress free and dignified as possible. From the courteous front end staff to the, compassionate nurses, to the qualified doctor, everyone was exceptionally caring, attentive, and well trained.
- I appreciate it that the nurse who was to give me an IV did not hesitate to ask for help when she was having trouble finding a vein due to dehydration. The nurse that helped her made sure to give her info for the next time.
- I have had 3 colonoscopies done at your center, all by Dr. Kondapalli. I would highly recommend your center! From the

check in process to leaving after the recovery period, the staff was very polite and friendly. I was relaxed, confident and comfortable from start to finish.

- Thank you for the positive experience at your clinic. Everyone was very helpful and kind. I really appreciated it.
- Had more after effect from the anesthetic than I expected - took a couple of days to feel normal again.
- My wife wasn't included in the post procedure briefing.
- Experience from initial contact via phone, doctor's visit, and follow up exam was exceptional. I wish all medical services in the area were as pleasant, timely, efficient, and thorough. My compliments, truly 5 star treatment. Dr. Katie Agnello, magnificent!
- Awesome from start to finish.
- Procedure went well. It didn't take very long. Everyone was very efficient and caring.
- Thank you, all. What a great, friendly staff! Tammy, Porcha, Becky, Kelly, Cheryl, Adam, & Dr. Dumas
- Loved the fact every time I saw a nurse they were washing their hands constantly and the facility was very clean.
- I had a colonoscopy on 6/12. Everything about the way I was treated there was fantastic. The employees were fantastic and everyone seem to care about my well being and comfort. They constantly came in while I was waiting for my procedure to make sure I was comfortable. Don't put off your required colonoscopy. The prep is a little challenging if you're not used to drinking 1+ gallons of liquid in 24 hours. Make your appointment as early in the morning as possible because you will be starving! Request to have your procedure done at Gulf Coast Endoscopy Center. The experience could NOT have been any better. I also had an upper endoscopy on 6.18.18 and the experience was just as great as my colonoscopy.
***If you have to have a procedure, Gulf Coast Endoscopy Center is clearly the place to go. I went to a different facility on Tamiami Trail near Jacaranda Blvd. 2 years ago, and would never go back.
- Doctor Agnello was very knowledgeable about my condition and I feel after four days that she solved my problem. Would definitely recommend her!
- The only problem I had a runny nose for a few days after procedure. Some advise initially would have helped. Like what could I take if anything. I did obtain some information off the web.
- Very satisfied with this surgery center. Everyone was very nice from being checked in thru the procedure and surgery. Also they kept my husband informed thru out the process. Thanks
- Procedure went quick, thanks for the free liver scan
- Care was great (would say exceptional but it may be normal) in all areas from reception to recovery. If it wasn't for the prep day I would look forward to a return!!
- I felt comfortable there. Staff was very professional and helpful and most importantly friendly and patient.
- I was totally happy with my Gulf Coast Endoscopy & Surgery Center experience.
- I was extremely impressed with the professionalism, knowledge, compassion and individual attention I received in preparation for my colonoscopy. I felt confident initially with my interview with Dr. Kondapalli up through my discharge. I appreciated the call this morning inquiring how I'm doing. I certainly as an RN will recommend your services to friends and neighbors.
- Dr. Dumas and his entire staff were professional and friendly. I couldn't be more pleased with everyone and the cleanliness of the facility. My first visit to this facility was in 2012 and had the same experience.

- It was a wonderful experience as far as the procedure was concerned. The pre-drink was disgusting, however...and this was my fourth or fifth colonoscopy...the drink keeps getting worse. - Thank you - very professional service.
- This colonoscopy went perfect as did the previous 2 I had at this location with Dr. Felman. The staff at the Center is terrific and seriously professional. I always felt well cared for and my health was their top priority. They do a lot of these procedures but I was never treated like just a job to any of the staff - from check in to departure. They kept me relaxed and explained everything every step of the way. I actually found the procedure itself relaxing and certainly not stressful. Dr. Felman himself is a true professional in every aspect and I always felt that I was in good hands with him.
- Everything was handled very efficiently and with considerable care for my well being. Questions were readily answered. The staff are very well trained. On a scale of 1 to 10 I'd have to give the whole procedure, staff and my Doctor a 12. I am grateful.
- I was not feeling well at all when I arrived at the Center, the nurse (I think her name was Kathy) was wonderful, making sure I was ok and administering fluids, etc., immediately. The entire staff was kind, professional and caring.
- I have had this procedure several times at this facility. I am always very impressed with the efficiency and care the professionals carry out their responsibility from checking in until discharge. I would highly recommend this facility.
- Visit was great. On time no long waiting and easy to understand the procedure and aftercare.
- Very efficient check-in and everyone knew their part in the procedure extremely well. Very relaxing with kind and friendly staff. Operatory staff obviously were congenial which added to the calming effect. I am very pleased with Dr. J. Raja.
- all the nursing staff were absolutely amazing! From the moment I arrived I felt well cared for and my worries were put at ease. Laura Crum was my nurse and she was an angel. The NA and her staff were also so efficient and caring that I had no worries with putting my life in their hands. Dr Agnello is so calm and sweet. I will recommend her and your facility to all my friends!
- Every aspect of working with GCEC was top notch, from the initial appointment, through confirmation phone call, calling the office for additional questions, to the procedure and the follow up. Everyone was courteous, reassuring, accommodating and professional. When necessary to repeat the procedure sometime in my future, I'll confidently return. I have already

Patient Testimonials

- Have used this center several times. Always very professional and very clean. The staff is so nice and caring.
- When I was in recovery, I was talking with the discharge nurse and even before I knew anything about the survey, I sat there looking around, and said "this place sure is a well oiled machine!"
- All the workers were very accommodating. I believe this was my visit #8 to your center for a procedure. All of them have been very pleasant experiences.
- The Colonoscopy procedure was so much easier than I expected, as relaxing as taking a nap. Nothing embarrassing, uncomfortable, or painful about it. Yes, the prep puts you in the bathroom for a few hours, but nothing like I've been dreading for years. I had 2 precancerous polyps, and it's recommended I come back in 3 years. I'm very thankful I had the procedure, and will have no apprehension in making my next appointment. Thank you Dr. Agnello and the staff at Gulf Coast Endoscopy. I have no doubt your excellent care has saved many lives.
- Only issue was sore throat and pain in upper chest but today 12/5/17 all is well.
- I was treated professionally and everyone I encountered was friendly. Thank you.
- Outstanding service from the moment I walked in until I was discharged. Everyone was amazing. Thank You
- The process was painless and expedient. From first contact with the reception through discharge, every individual involved was pleasant, empathetic and professional. Dr. Kondapalli was there prior to the procedure as well as after, addressing any concerns and answering any questions. The consummate professional who I would highly recommend. Also, I'm told the staff was considerably tolerant while I went through the recovery process from the anesthesia for which I will be eternally grateful.
- The staff were the most outstanding part; very friendly towards each other and accommodated my needs and periodically checked on me while I waited for the procedure.
- Wonderful experience with exceptional care! Not so much preparation.
- Very smooth and efficient.
- From the front office, pre-procedure, the procedure itself, post-procedure, and departure the Center's staff was professional, friendly, and caring in their demeanor and actions. Even though everyone was efficient in their respective duties, there was no "assembly line" feel like I have experienced at other surgery centers. Undergoing a colonoscopy is not on my list of fun things to do in life; however, when I next need one done, I shall not hesitate to return to the Gulf Coast Endoscopy and Surgery Center of Venice.
- The entire visit, Doctor and procedure was excellent. I have no negative comments.

- Overall, the care I received from this center was more than I expected. Everyone was caring and comforting. I think humor is the best thing to keep people's minds off of what they are about to do. He was beginning to worry while waiting in the outer office.

She was even able to insert an intravenous IV line into my arm with NO bruising or even a mark the next day which is amazing because I bruise very easily. Amanda my anesthesiologist explained everything and was quite reassuring. Maria the attending nurse during the procedure was very pleasant. Kelly my recovery nurse was very nice to talk to. Dr. Gossbard was great. My only suggestion is I wish that a diagnosis of a tortuous colon would have been explained to me. It wasn't on my diagnosis from my colonoscopy from four years ago so I'm not sure if this is new since my last procedure. I had to look it up when I got home after reading it on my discharge papers. I guess this is what the post procedure office visit is for. Thank you all for everything.
- Everyone at the Center was very nice and caring. It was a very good experience.
- Excellent service. Kind, caring and friendly staff. Very warm and welcoming-staff. I always feel safe and can relax each time I visit.
- Very satisfied with the Doctor, staff and the facility.
- I would recommend that the doctors explain to patients before the prep how harsh the Suprep is on the skin. My buttocks were raw after the Suprep. This was my third colonoscopy and the first time I have experienced this problem. If I had known before hand I would have taken precautions to protect my skin. I am still healing from this issue.
- I had been in another surgical center since we came to Florida & was concerned; feared we had taken a step backward in our medical care. Am more than pleased we came to find your facility.
- Excellent mix of professionalism, courtesy, attention, thoroughness, etc. A first-class service.
- I would recommend the center.
- Smooth and efficiently run facility.

- I have had several procedures at your facility and have always been very satisfied.
- I was treated with respect and a friendly manner from the time that I arrived until I left. The procedure was explained in full and I was constantly asked about my comfort. The employees of this facility were excellent from receptionist to the nurses. Dr Kondapolli is the type of physician that all patients need. He explains so that you understand and treats you as an intelligent adult. He answered all questions and I walked out with no concerns. Thank you all for making this procedure so easy.
- Very friendly and professional staff that is genuinely concerned with your health, keeping you informed on expectations both before and after the procedure.
- Very satisfied with all aspects of Gulf Coast Endoscopy Center.
- most surveys have 5 as the most positive and 1 as the least positive. This survey is the opposite and I nearly used the wrong scale in the evaluation. If you are getting some unusual results from your surveys, it may be due to that reason.
- My pre prep condition was poor. I used the kit that was prescribed and followed the instructions to the letter. When I had my first colonoscopy 15 years ago the prep at that time cleaned me out 100%, 10 years ago the prep was not so good and this time not good at all.
- Dr. Felman is a very calm and reassuring doctor. There is a kind and helpful staff throughout the whole procedure.

- All of the staff was kind, concerned, and explained all that would be done. I was really impressed with everyone there. The only comment which is not negativeeveryone that entered got confused as where to go to sign in. Walking in you automatically turn to the right and miss the computer sign-in. I would suggest more signs perhaps on the outside of the door as you enter or rearrange a better spot for it.

Patient Testimonials

- Very professional from check in to check out. Dr Kondapalli very caring and patient friendly. After procedure the Nurse who attended to me was very nice and went over everything I needed to know in a competent and professional manner. My wife was kept apprised of what was going on and was included in my after procedure information. All in all considering the type of procedure, it was as pleasant as could be.
- Great people, great facility, and great doctor!! They did a great job of taking the stress out of a normally unpleasant procedure!!
- The check in with the computer was a little confusing, but everyone was GREAT. Kim, Bob and Marthe were all very efficient, answering my questions and handling every detail.
- Only "poor" comment was because no one talked to husband during wait. Not really a problem because we knew procedure would be awhile. Staff was very kind, especially right before surgery when I was most nervous waiting out in the hall.
- Very pleased with the entire experience.
- Comfortable, private, professional and safe Center for an endoscopy procedure. Recommend with confidence. Thank you Dr. Katie Agnello and staff.
- Very professional staff.
- Great staff. Make you feel at ease.
- Nice facility- appointment time to start was a few minutes late but the staff notified person who would be taking me home of this. No major issues. Nice to not have to travel to Sarasota to have this done.
- My doctor was forcing me to have a colonoscopy. I held off for years because my last experience was so awful. This time I chose a different facility. Dr. Agnello eased my worries with her friendly bedside manner and humor. The colonoscopy prep was easy and painless as the taste was surprisingly good as opposed to other preps I have taken. The staff was helpful and had excellent follow-up. I would definitely recommend anyone who is in need of a colonoscopy to come to this facility.
- Excellent Service! Especially with my IV...
- I believe there may be a communication failure in your electronic check in or maybe I didn't use it correctly? On my both mine and my husband's visit, I believe in Feb. we signed in and waited past our appointment time and were never called. Out of concern that maybe we didn't do it correctly on both occasions, we went to see the receptionist and she immediately checked us in.
- Very pleasant experience. They used paper tape on the IV and stretch wrap when taken it out and absolutely no marks or bruises when I took it off at home. A first! :)
- Lisa E was such a kind face to see after my procedure. The staff is excellent. Nursing staff go above and beyond.
- Everyone at the center was wonderful !!!! Extra special thanks to Martha for all her assistance !!!

- The admission, pre and post procedure, and OR staff at Gulf Coast Endoscopy were excellent. The pre and post procedure staff, as well as the OR staff, were especially friendly, courteous, and cheerful. They were efficient and caring. They were concerned with my comfort as well as my well-being. The anesthesiologist was pleasant and informative, explaining what was going to happen and let me know that she was going to be present the entire time of the procedure. I was familiar with the procedure, as I have had it before, and had no apprehension about it, however the staff treated me as if I were a new patient. All in all, it was a pleasant experience to be there.

- Of course, no one wants to go through a procedure, but all providers at the Gulf Coast Endoscopy Center make the process as pleasant and simple as possible, starting with the lady at the front desk. Meghan, my nurse who greeted and prepared me; to Kelly, my nurse anesthesiologist; to Sue, who took great care of me after the procedure, are all warm, kind, gentle, bright, caring, extremely capable professionals. I actually had fun with you all. And, of course, Dr. Agnello is wonderfully pleasant to work with. Thank you!

- Everyone was very kind and professional, but there was a nurse who got me ready for the procedure. Her name was Megan, very nice and personable and professional. - I've known about Dr Grossbard for many years. He's considered one of the best and I trust him. My wife has also been to him. Matter of fact, he was away when my GP suggested I see a Gastro type. He could get me an appointment that day, but I chose to wait for Dr Grossbard's return. Glad I did.

A big thank you to the check in personnel, the nurses, the anesthesiologist and Dr Kondapalli.

- A well run team of knowledgeable and courteous medical professionals!!!
- Great experience. Staff was extremely comforting and professional.
- PRE OP VISIT WENT QUICKLY - WAITING TIME WAS LESS THAN 5 MINUTES - AND WRITTEN INSTRUCTIONS HANDED OUT FOR PRE OP PROCEDURE WERE CLEAR AND WELL ORGANIZED. ON DAY OF PROCEDURE - DISCHARGE TIME WAS ONLY 90 MINUTES AFTER ARRIVAL TIME - MUCH SHORTER THAN THE 2-3 HRS ORIGINALLY ESTIMATED.

- excellent staff
- Everyone I met seemed to really enjoy their jobs and working here. I don't do well with needles and was quite anxious about having the IV put in. I can't remember the name of the nurse who did it, but she did an excellent job of calming my nerves, and the needle went in painlessly. And after the procedure Marthe took excellent care of me. Dr. Kondapalli and the anesthesiologist must have done a good job because my recovery was quick and uneventful.

- Excellent service. Very pleased.
- Excellent service, professional atmosphere.
- Extremely efficient facility, very well run
- My only suggestion would be to have the conversation with the receptionist allow more privacy. Even though there was a low wall between the waiting room and the reception area, I could clearly hear every conversation that went on before and after I was brought back for my procedure.

Also, although the doctor did speak with my husband to let him know how things went, he went over the information while I was still under anesthesia. I would have preferred if he had been able to discuss my procedure after I woke up so I could have been a participant.

- I am sending an email message to apologize to "ALL" the staff for being so loud & rude. My sister Paula repeated to me, what I said to the juice lady, & nurses. You all are such caring & loving staff** forgive me. Even if it was caused by the gas & medicine. Forgive me again please~~~~But do not forget to do good and to share, for with such sacrifices God is well pleased. HEBREWS 13:16 The Endoscopy Staff did good & shared !!! God Bless All

- Everyone was so kind and professional. I was nervous before the procedure but felt very confident after engaging with the staff.
- Staff is friendly, professional, and patient oriented.
- First of all, Jane was such a positive,pleasant person to check us into the center. She and I also share a birthday which is to say she definitely makes connections with clients.
Then I had Kim for a nurse who put in my drops and IV and WOW, she was delightful, efficient and let me know everything she was doing. It was refreshing to have care that I did not have to request information. She is definitely a keeper. Also, she pre-introduced me to other nurses who would be caring for me and that made me feel welcomed and "homey" .

Then there was Nancy who had called the day before surgery, took me into the procedure room AND called the next day. She is a keeper, too.

You guys are very blessed to have the staff you have acquired. Thank you for such a great experience and I will see you Wed. for the next appt.

Patient Testimonials

- Thank You!
- Instructions on written papers did not mention to bring driver's license and insurance cards, no jewelry or makeup. Those instructions were only with the phone call. They also need to be in the written material.
- I was impressed by the cleanliness of the facility, and the courteous manner of which I was treated. The follow-up call the next Morning showed me you're concerned for my health.
Thank you
- Everyone was wonderful. Couldn't have had a better experience.
- This establishment operates like a state of the art hospital.
- Everyone at the center treated me with courtesy and were concerned about my well being.
I definitely would choose the center again, if I need the procedure again.
- The only thing I offer to improve is; more information concerning what to expect once you take the two bottles of liquid dynamite. At the end, the morning of the procedure I was still having yellow water and I am thinking what did I do wrong? There can't be anything left? The nurse latter told me that was normal, would have been good to know that up front.

Overall, great job, good team, doctor and staff, exceptional facility. You all make a bad thing about as good as it can be.
Thank You.
- The entire procedure was very efficient.
- Overall, excellent, professional caring procedure. Thank all of you so much.

- Very satisfied with the care I received. I would recommend Gulf Coast Endoscopy Center to others. Everyone was very nice and attentive. Overall good experience.
- Excellent experience. The best colonoscopy of the four that I have had. Hope the lab results are good. See you in a year. All personnel that I had contact with were excellent! Would like to know positive and negatives on the different preps that are available. Prices seem to vary widely.
- Wonderful in every way!
- Not only would I return if needed, but I would also recommend to others.

Find a way to make it extra clear that the rating scale from 1 to 5 is BEST to WORST or GOOD to BAD the reason I say this is because I went through the whole form giving mostly 5's, thinking that 5's were the highest or best rating I guess I assumed that the bigger the number, the better the rating thank goodness I got sent back to the beginning and saw the instructions that I had failed to read the first time.

Patient Testimonials

- Everyone was very nice and caring.
- I, like many patients, was very apprehensive about having a colonoscopy in the first place. In my relocation to Venice, I was dealing with a new location, new health systems and re-establishing my network of doctors. Then, along with these changes, I was tasked with getting a colonoscopy--OH NO! My prior colonoscopy anxieties resurfaced and I asked my GP for a gentle doctor to help with my sensitive colon. That recommendation brought me to Dr. Katie Agnello and Gulf Coast Endoscopy and Surgery Center of Venice.

My experience with GCESC of Venice has made me a 'believer in quality healthcare'. The doctors' and staff's kindnesses and concerns for patient's privacy and dignity, answering even my simplest questions and gentleness in prep and surgical treatment were their reason for coming to work at GCESC on a daily basis. And that showed!

The staff and doctors wanted my surgical procedure to be the best it could be. Even while a colonoscopy is not a 'lovely time'; it is an important life mile marker in a person's responsible health care.

I will have less fear and not dread of my next colonoscopy -- Thanks to the Doctors and Staff of Gulf Coast Endoscopy & Surgery Center of Venice.

- Kim my nurse was exceptional, and Kelly the Anesthetist, was great, never felt anything. Wonderful staff!

Thank you!
- Service was fast and on time. All paperwork was in order and waiting time was minimal.
- In recovery, Dr. Kondapalli came in and explained how the procedure went and when I would be notified of the results. During the entire time he was in the recovery room he was very attentive and immediately established personal contact by simply touching my hand to ensure my comfort. His bedside manner in the procedure and recovery rooms was highly commendable and will be one of the main reasons I return. Your entire team exemplifies professionalism and integrity. Thank you for a great visit.

- The worst part of this whole procedure is the prep at home. On the morning of the procedure, the attention given from the moment I walked up to the admission desk, until I was wheeled out the exit to my waiting ride, made me forget all the discomfort from the day before. Every staff member, including Dr. Kondapalli, had a warm smile, answered all of my questions, and helped me to relax prior to starting the procedure.

- I arrived at 9 AM and was told I would be finished by 10:30. I did not get finished until 11:45. Not a problem for me, but asking a relative, neighbor or friend to sit and wait all that time to drive me home is. Everything else was very good.
